Executive Summary

Electronics and Communication Engineering student at SRM Institute of Science and Technology with a strong interest in embedded systems, electronics, and software development. Hands-on experience in designing Arduino- and analog circuit-based projects, complemented by programming skills in Python, Java, and C. A proactive learner with excellent teamwork, leadership, and problem-solving abilities, seeking opportunities to apply technical knowledge through internships and real-world engineering projects.

Technical Skills

Programming Languages

- Python
- Java
- C Programming

Embedded Systems & Electronics

- PCB Design
- 555 Timer IC
- Analog Circuit Design
- MQ-6 Gas Sensor
- Digital Logic

Tools & Software

- DaVinci Resolve
 - Adobe Photoshop
 - Microsoft Word
 - Microsoft PowerPoint
 - Visual Studio Code
-

Soft Skills

- Problem Solving
 - Communication
 - Teamwork
 - Leadership
 - Time Management
 - Adaptability
 - Creativity
 - Attention to Detail
 - Self-learning
 - Presentation Skills
-

Professional Experience

Projects

LPG Gas Leakage Detection System | Oct 2025

Technologies: Arduino Uno, MQ-6 Gas Sensor, Embedded Systems

- Developed an LPG gas leakage detection system using Arduino Uno and MQ-6 gas sensor.
- Integrated visual and audible alert mechanisms for real-time gas leak detection.
- Assisted in hardware assembly, wiring, testing, and troubleshooting.
- Collaborated with a team of six members to complete the end-semester mini project.
- Demonstrated practical knowledge of embedded systems, sensors, and hardware integration.

555 Timer Breadboard Piano | Apr 2026

Technologies: 555 Timer IC, Analog Electronics, Breadboard Circuits

- Designed and built a multi-key electronic piano using a 555 Timer IC.
 - Constructed and tested analog circuits on a breadboard.
 - Performed debugging and optimization to improve circuit performance.
 - Collaborated with a team of three members during development and testing.
 - Successfully delivered a functional prototype as part of the end-semester mini project.
-

Education

Bachelor of Technology (B.Tech) – Electronics and Communication Engineering
SRM Institute of Science and Technology, Kattankulathur Main Campus
2025 – 2029

Certifications

Python Basics (30 Hours) – Udemy
Duration: March 2026 – April 2026
