

VIKRAMAN V

Electronics & Communication Engineering Student | Hardware & Software

Email: byvikraman@gmail.com | Phone: +91 9360625695 | Location: Chengalpattu, Tamil Nadu

GitHub: github.com/V1kraman | LinkedIn: linkedin.com/in/byvikraman

PROFESSIONAL SUMMARY

Electronics and Communication Engineering student at SRM Institute of Science and Technology with a strong interest in embedded systems, analog electronics, and modern software development. Hands-on experience designing microcontroller and analog circuit-based systems, complemented by software skills in Python, Java, C, and Web. Proactive learner with strong teamwork, leadership, and problem-solving abilities seeking engineering opportunities.

EDUCATION

SRM Institute of Science and Technology

2025 - 2029

Bachelor of Technology (B.Tech) - Electronics & Communication Engineering

Kattankulathur, Tamil Nadu. Focus: Embedded systems, IoT architecture, and digital electronics.

Brindavan Public School

2023 - 2025

Higher Secondary Certificate (HSC) - Computer Science

Graduated with distinction. Core subjects: Physics, Chemistry, Mathematics, and Computer Science.

EXPERIENCE

SYNK

Aug 2026 - Sept 2026

Engineering Intern - AI Systems Architecture (Remote)

- Researched and prototyped AI-based system architectures and integrations.
- Collaborated with engineering teams on systems analysis and pipeline optimization.

KEY PROJECTS

Smart LPG Gas Leak Detection System

Hardware & Embedded C++

- Built an autonomous gas leak monitor utilizing MQ-6 sensor, buzzer alerts, and Arduino logic.
- Designed analog comparator thresholds and automated buzzer/LED early warning sequences.

Digital Synthesizer & Tone Generator

Arduino & Audio Electronics

- Designed a multi-key digital synthesizer utilizing PWM frequency modulation on ATmega microcontrollers.
- Engineered switch debouncing algorithms and low-latency audio response buffers.

TECHNICAL & CORE COMPETENCIES

Electronics & Hardware:	PCB Design, 555 Timer IC, Analog Circuits, MQ-6 Sensor, Arduino, Embedded Systems, Digital Logic
Programming Languages:	Python, Java, C Programming, TypeScript, JavaScript, C++
Web & Frameworks:	React, Next.js, Tailwind CSS, Node.js, REST APIs
Engineering Tools:	Git & GitHub, VS Code, Altium / KiCad, Figma, Adobe Photoshop, DaVinci Resolve
Soft Skills:	Problem Solving, Technical Communication, Leadership, Team Collaboration, Project Coordination
